Governance & Regulation

Explore policies and frameworks vital for regulating cyber security in an organisation.

Task 2 Why is it important?

Question	Answer
The term used for legal and regulatory frameworks that govern the use and protection of information assets is called?	Regulation
Health Insurance Portability and Accountability Act (HIPAA) targets which domain for data protection?	Healthcare

Task 3 Information Security Frameworks

Question	Answer
The step that involves periodic evaluation of policies and making changes as per stakeholder's input is called?	Review and update
A set of specific steps for undertaking a particular task or process is called?	Procedures

Task 4 Governance Risk and Compliance (GRC)

Question	Answer
What is the component in the GRC framework involved in identifying, assessing, and prioritising risks to the organisation?	Risk Management
Is it important to monitor and measure the performance of a developed policy? (yea/nay)	yea

Task 5 Privacy and Data Protection

Question	Answer
What is the maximum fine for Tier 1 users as per GDPR (in terms of percentage)?	4
In terms of PCI DSS, what does CHD stand for?	cardholder data

Task 6 NIST Special Publications

Question	Answer
Per NIST 800-53, in which control category does the media protection lie?	Physical
Per NIST 800-53, in which control category does the incident response lie?	Administrative
Which phase (name) of NIST 800-53 compliance best practices results in correlating identified assets and permissions?	Map

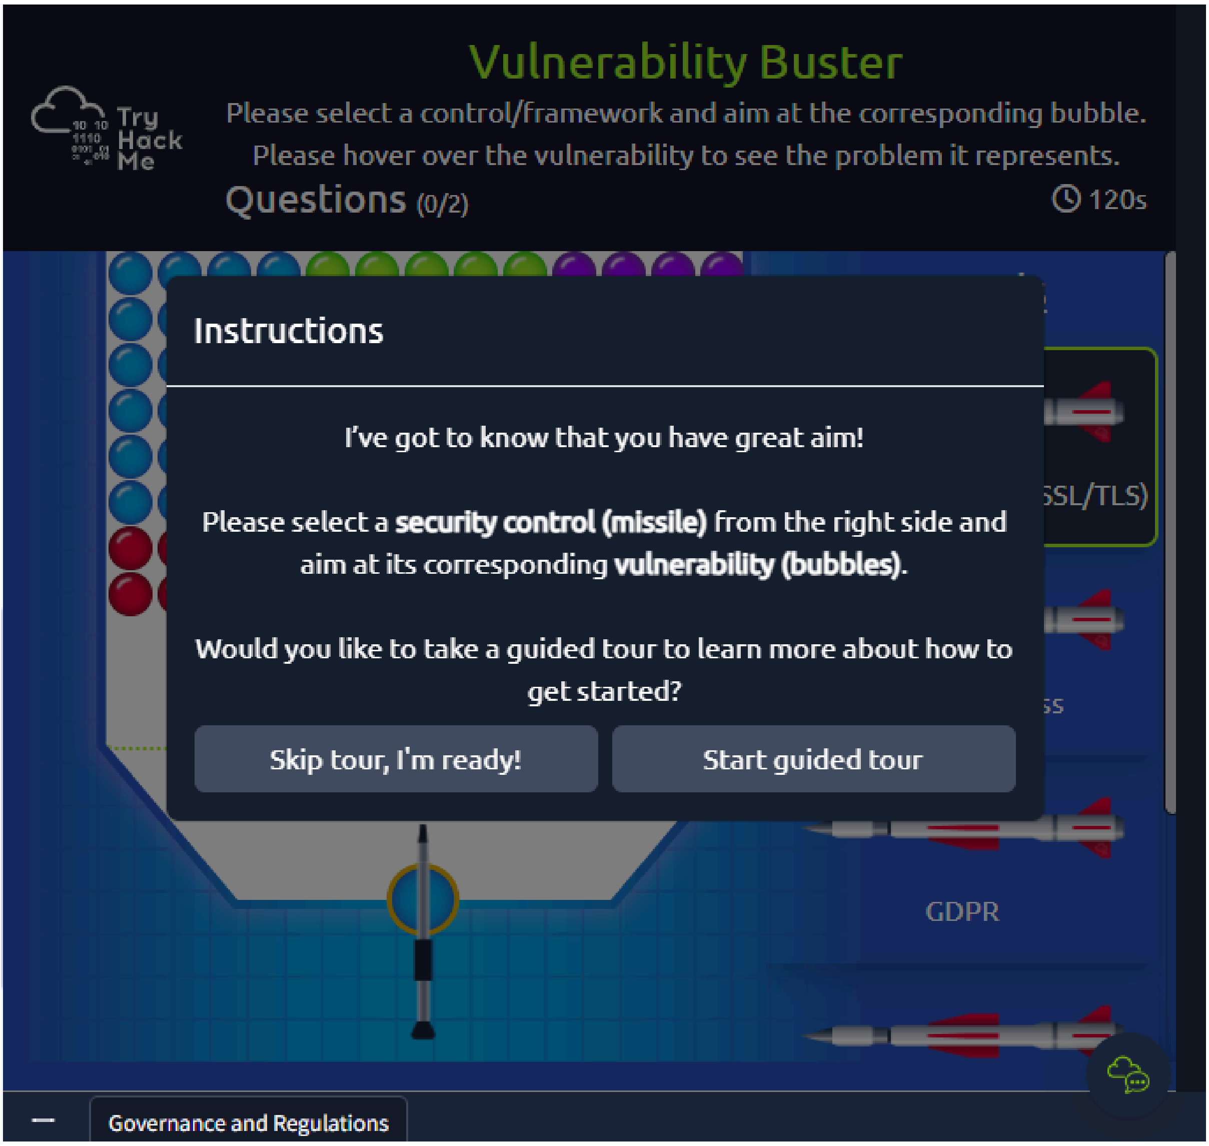
Task 7 Information Security Management and Compliance

Question	Answer
Which ISO/IEC 27001 component involves selecting and implementing controls to reduce the identified risks to an acceptable level?	Risk treatment
In SOC 2 generic controls, which control shows that the system remains available?	Availability

Task 8 Conclusion

Click the View Site button at the top of the task to launch the static site in split view. What is the flag after completing the exercise?

Answer: THM{SECURE_1001}



Vulnerability Buster

Please select a control/framework and aim at the corresponding bubble.

Please hover over the vulnerability to see the problem it represents.

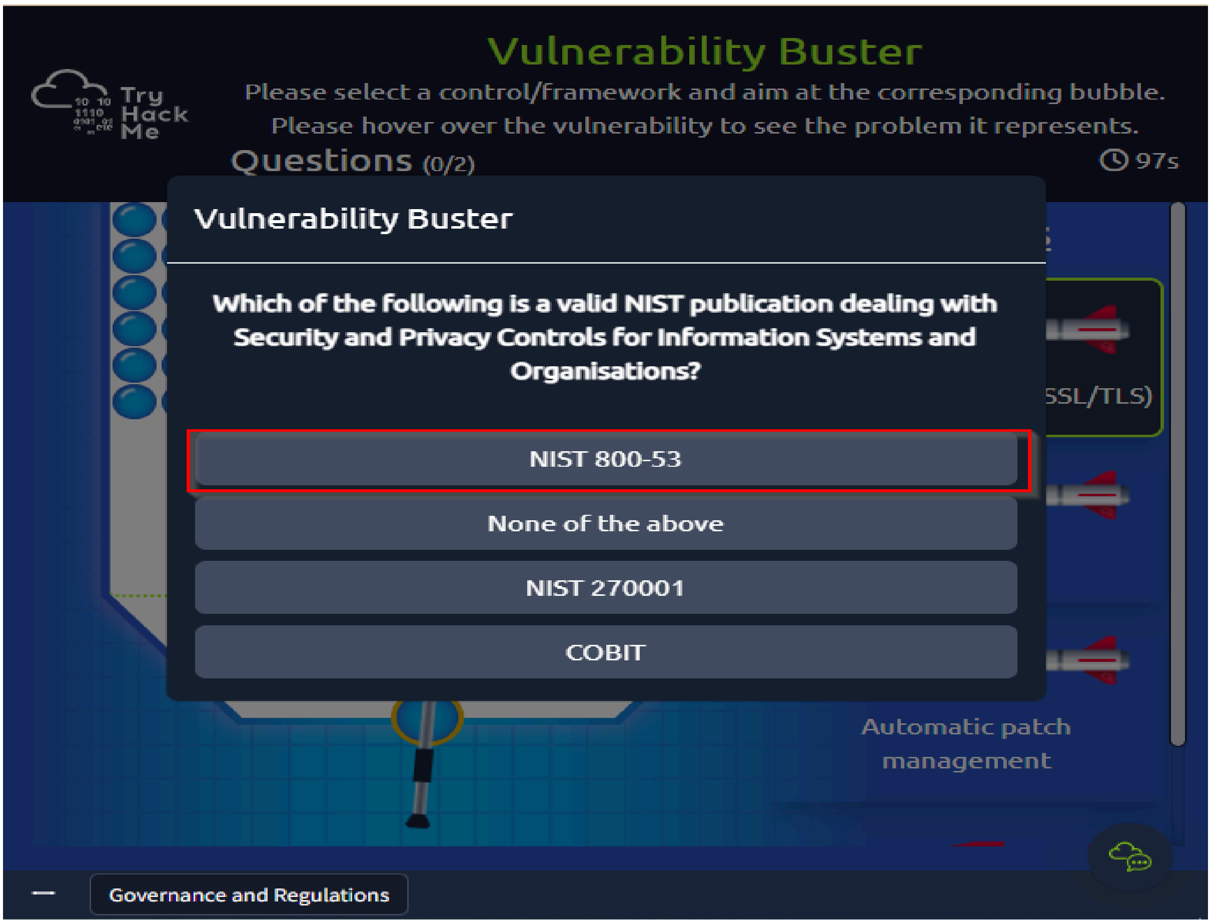
Instructions

I've got to know that you have great aim!

Please select a **security control (missile)** from the right side and aim at its corresponding **vulnerability (bubbles)**.

Would you like to take a guided tour to learn more about how to get started?



Vulnerability Buster

Please select a control/framework and aim at the corresponding bubble.
Please hover over the vulnerability to see the problem it represents.

Questions (0/2) 97s

Vulnerability Buster

Which of the following is a valid NIST publication dealing with Security and Privacy Controls for Information Systems and Organisations?

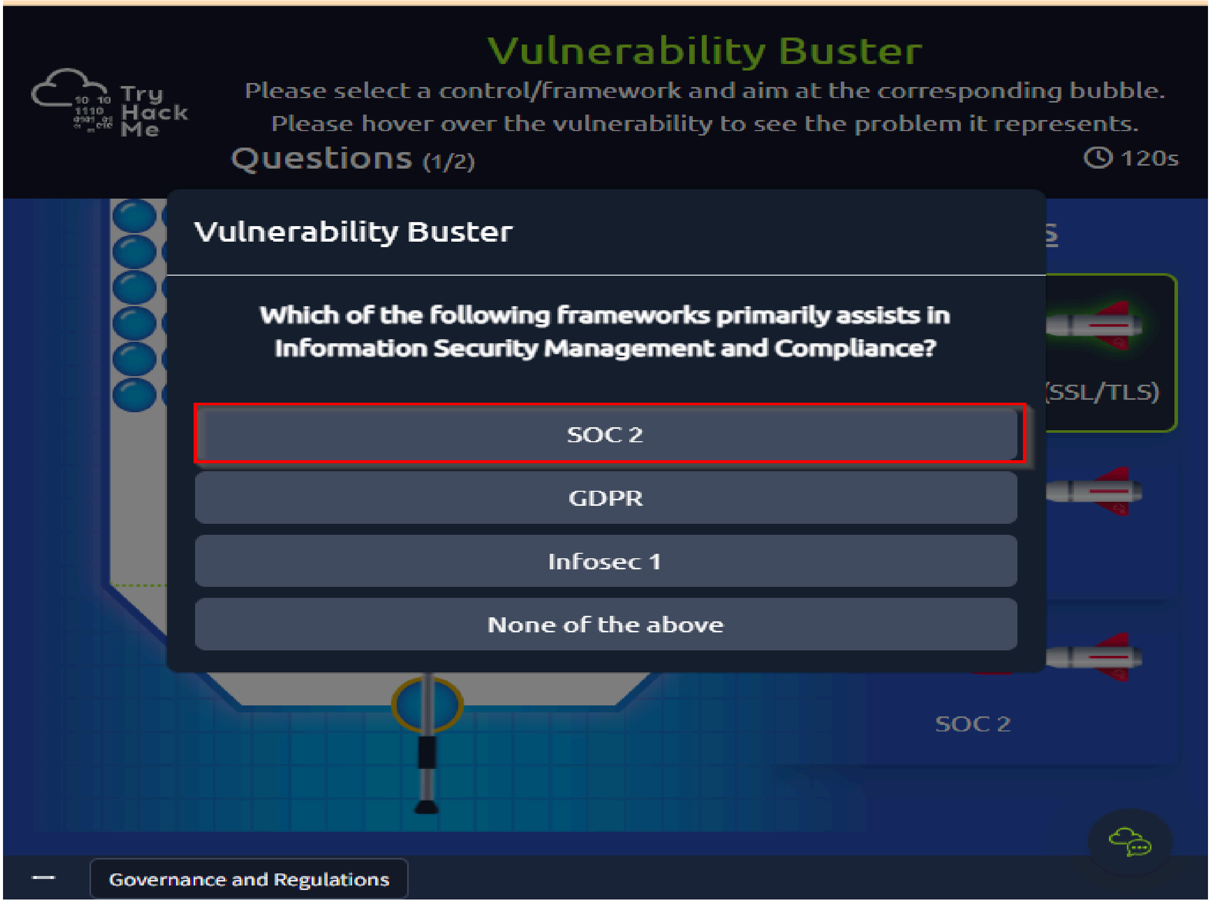
[✓ NIST 800-53]

None of the above

NIST 270001

COBIT

Try Hack Me
SSL/TLS)
Automatic patch management
Governance and Regulations



Vulnerability Buster

Please select a control/framework and aim at the corresponding bubble.
Please hover over the vulnerability to see the problem it represents.

Questions (1/2) 120s

Vulnerability Buster

Which of the following frameworks primarily assists in Information Security Management and Compliance?

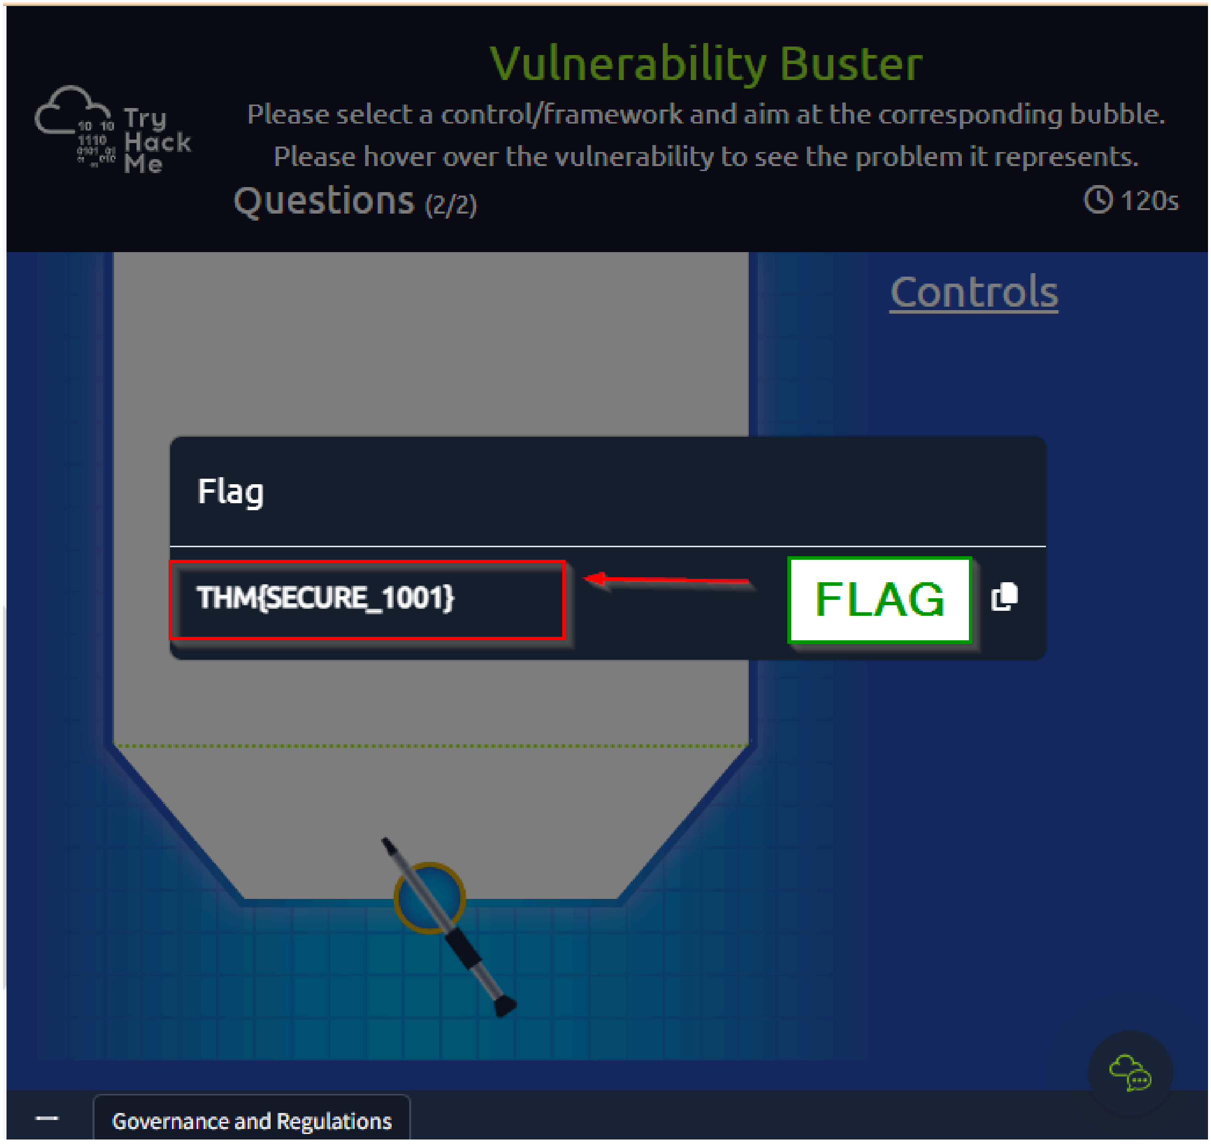
[✓ SOC 2]

GDPR

Infosec 1

None of the above

Try Hack Me
(SSL/TLS)
SOC 2
Governance and Regulations



Vulnerability Buster

Please select a control/framework and aim at the corresponding bubble.

Please hover over the vulnerability to see the problem it represents.
